

CALLING ALL IMMUNOLOGY
UNDERGRADUATES AND POST-BACCS!

Undergraduate Summer Research Conference

SUBMIT YOUR ABSTRACT BY
JUNE 27TH!

Are you an undergraduate student actively engaged in immunology research?

Do you support a student actively engaged in immunology research?

Join us for the First Annual Undergraduate Immunology Research Conference sponsored by the Society for Leukocyte Biology!

What: An opportunity for undergraduate students and those in a "post-bacc" program (*post-baccalaureate* or non-US equivalent) to present their research, meet with graduate school recruiters, and talk with current graduate students about their programs and research.

Why: Undergraduate and post-bacc trainees will get experience presenting their research, feedback about their presentation, and have an opportunity to explore programs and build a professional network.

Format: Multiple one-hour sessions of recorded 3-minute presentations, a one-hour meeting with graduate program recruiters, and a one-hour "meet and greet" with graduate students.

How: Register to join by submitting your 3-minute presentation via the [form link](#).

Who: SLB undergraduate trainee members and those in post-bacc programs (participation for members is free!)

When: Two important dates! **Submission Deadline** – June 27th; **Live event** - Thursday August 11th, 2022, 11am EST

Where: A convenient online, virtual program for members around the world! Register by submitting your video abstract. Program details and presentation scheduling will be announced closer to the date of the live event along with joining instructions.

To apply submit the following:

- Abstract title
- Co-authors (in any)
- Affiliated Institutions
- A 75-100 word description of your video abstract (word doc)
- A narrated 3-minute PowerPoint file (ppt)
- A picture of you (minimum 200x200px) (jpeg)
- A 75-100 word bio including education and research interests (word doc)
