Trainees are encouraged to sign-up for this full-day preconference program on October 26, 2022 designed by the Members in Transition and Training Committee. More program details coming soon!

Legacy Award Lecture

Harnessing the Potential of Hematopoietic Stem Cells for Targeted Delivery of Therapeutic Genes
Robert Clark, *University of Texas Health Sciences Center*

Plenary Sessions

Join for these sessions held at various times throughout the main conference October 27 – 29, 2022.

COVID - 19

- Chen Dong, Tsinghua University
- Carsetti Rita, *OBPG*
- Shane Crotty, *La Jolla Institute for Immunology*

Cancer

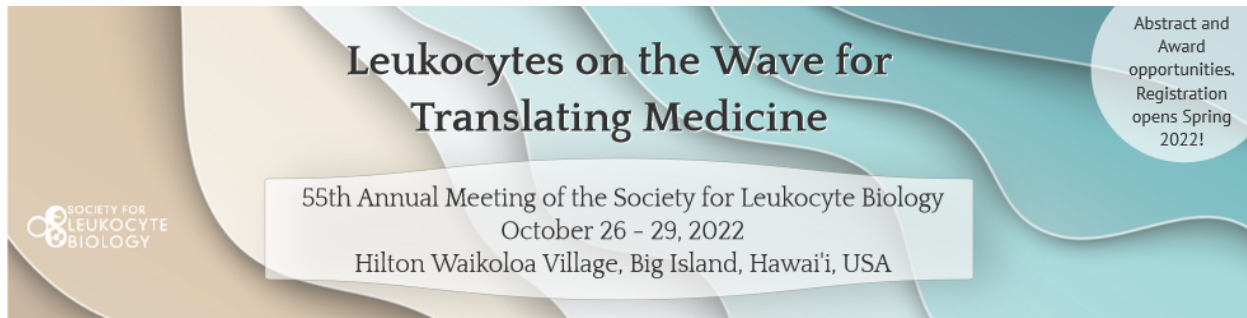

- Meng Michelle Xu, *Institute for Immunology Tsinghua University*
- James Lillard, *Morehouse School of Medicine*
- Spontaneous Coordinated Cellular and Humoral Immune Responses Provide Superior Protection Against Human Malignant Progression, **Jose Conejo-Garcia**, *Moffitt Cancer Center*,

Autoimmunity / Immune-Mediated Diseases

- Advances in Pathophysiology and Treatment of RAG Defects, **Anna Villa**, *National Research Council*
- Actin-binding Proteins and Inflammatory Diseases, **Michael Schnoor**, *Cinvestav-IPN*
- Daniela Cipolletta, *Seismic Therapeutic*

Advances in Leukocyte Biology

- Constitutive ILC2 Activation Causes Spontaneous Pulmonary Fibrosis, **Kazuyo Moro**, *Osaka University*
 - Marco Colonna, *Washington University School of Medicine*
 - Camilla Jandus, *University of Geneva*
-

Concurrent Sessions

Join for these sessions held at various times throughout the main conference October 27 – 29, 2022.

Omics in Leukocyte Biology

- Featuring Musa Mhlanga, *Radboud University*
- Plus 4 selected talks from Abstracts

COVID

- Featuring Mohamed Abdel-Mohsen, *The Wistar Institute*
- Plus 4 selected talks from Abstracts

Innate Immunity

- Featuring Massimo Locati, *University of Milan*
- Plus 4 selected talks from Abstracts

Cancer

- Featuring Asma Gati, *University Tunis El Manar*
- Plus 4 selected talks from Abstracts

Adaptive Immunity

- Featuring Yiwei Chu, *Fudan University*
- Plus 4 selected talks from Abstracts

Autoimmunity/Immune-Mediated Diseases

- Featuring Ivona Aksentijevich, *NIAMS, NIH*
- Plus 4 selected talks from Abstracts

Leukocyte Biology at Tissue Sites

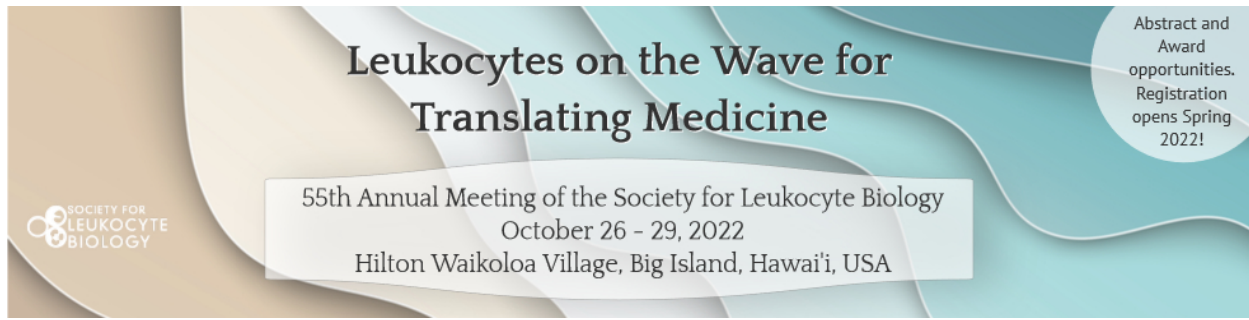

- Featuring Xiaoyu Hu, *Tsinghua University*
- Plus 4 selected talks from Abstracts

Infectious Diseases

- Featuring Faith Osier, *International AIDS Vaccine Initiative*
- Plus 4 selected talks from Abstracts

Posters and Flash Talks

Join for Flash talks which are short, 5 min oral presentations, programmed by the Members in Transition and Training Committee and chosen from the submitted abstracts. You may also browse posters presented from submitted abstracts on display during 4 different poster sessions throughout the conference. Onsite poster awards will be presented and announced at the Member Business Meeting.

Workshops

Join one or both of the workshops presented at the annual conference and programmed by the Professional Development and Diversity, Equity and Inclusion Committees. Check back for specific workshop details.
